

Specialist Immunisation Nursing Team

We are a small, friendly and experienced team of three nurses and an Administrator, who are here to support your child with their vaccinations. Our names are Annie, Jess, Rachel and Gill.

We specialise in reaching out to children and young people who are not able to access immunisations in a school setting.

We can offer small, personalised clinics, where children and young people can bring their parent/carer along for support. This means we can spend more time with you.

We may also be able to visit you at home if it's appropriate.

We can offer the following vaccines:

- HPV (Human Papillomavirus)
- Diphtheria, Tetanus and Polio
- Meningitis (ACWY)
- MMR
- Flu

We are able to offer clinics in a variety of venues across Berkshire.
