Pack E

Communication Friendly Space™ following the Elizabeth Jarman approach.

This pack will help you to provide a 'safe & cosy' child sized space that encourages children to develop their speech and language skills, particularly listening and responding with interest to conversations. They are designed to be calm spaces that help children to relax and engage in their chosen learning.

Key components for a communication space:

- Soft furnishings
- Neutral & pastel colours
- Maximise natural light
- Natural materials
- Textures
- Safe 'secret' spaces

Cosy enclosures (example below)

£16.99

Pack F

Sensory Visual Selection

This resource pack contains equipment that can provide a quiet, enclosed safe space for individual children. This enables provision for a sensory approach to learning. It could be used for focussing a child on one activity, using the torches for learning eye fixation or teaching how to eye track left to right as a skill needed for reading at a later stage.

The projector can enable fantastic 'projection adventures' as videos from an ipad, iphone etc. are projected onto the canopy of the chair, you can 'take' a child on a visual sensory adventure into outer space, under the sea or on a roller coaster ride!
