If you're a non-UK citizen who cannot claim benefits

If your immigration status says you have 'no recourse to public funds', you may still get free childcare for your 2-year-old. You must live in England and your household income must be no more than:

- £26,500 for families outside of London with one child
- £30,600 for families outside of London with two or more children

You cannot have more than £16,000 in savings or investments.

Contact your childcare provider or check with us if you're unsure if you can get free childcare.

"I have to put my 2-year-old in a childcare setting, for 15 hours a week. I don't think she is ready, it's too much, I don't want to use this!"

FALSE

Just because you are eligible for 15 hours a week of funded early education, it doesn't mean you have to use the full 15 hours a week entitlement.

You can speak to your childcare provider about your concerns, maybe put your child in at reduced hours to start, maybe increasing later or not, whatever works for you and your little one.

"If I get a new job, with higher income, I will lose my 2-year funding entitlement."

FALSE

Once you are eligible for the 2-year-old funding, you are eligible!

Your application is approved; you get your code at the same time. Just give this to the childcare setting, to get your little one started.

It doesn't matter if anything changes in your economic circumstances after, as at the time you applied, you were eligible!

To remind you see economic criteria for 2-year-old funding below:

If you are on certain benefits such as Universal, Child Tax or Working Tax Credits and have an annual income of below £16,190 before tax (£15,400 for families in receipt of Universal Credit) you could be eligible.

"I, as my child's mother, am the best nurturer and teacher, it's better for my two-year-old to be home with me, they are so young!"

TRUE

FALSE

You will always be your child's first and main carer, nurturer, and teacher, but early education at a nursery can help your child further by:

- setting the foundation for early lifelong learning
- improving your child's cognitive, linguistic, and social development
- preparing them for school.

Why not take advantage of this and:

- have some time to yourself
- quality rest time
- focus on another child at home
- do a course, upskill yourself, get back to work
- see friends, have time for a hobby.
