YOUNG PEOPLE'S NEEDS

Of the young people referred to us:

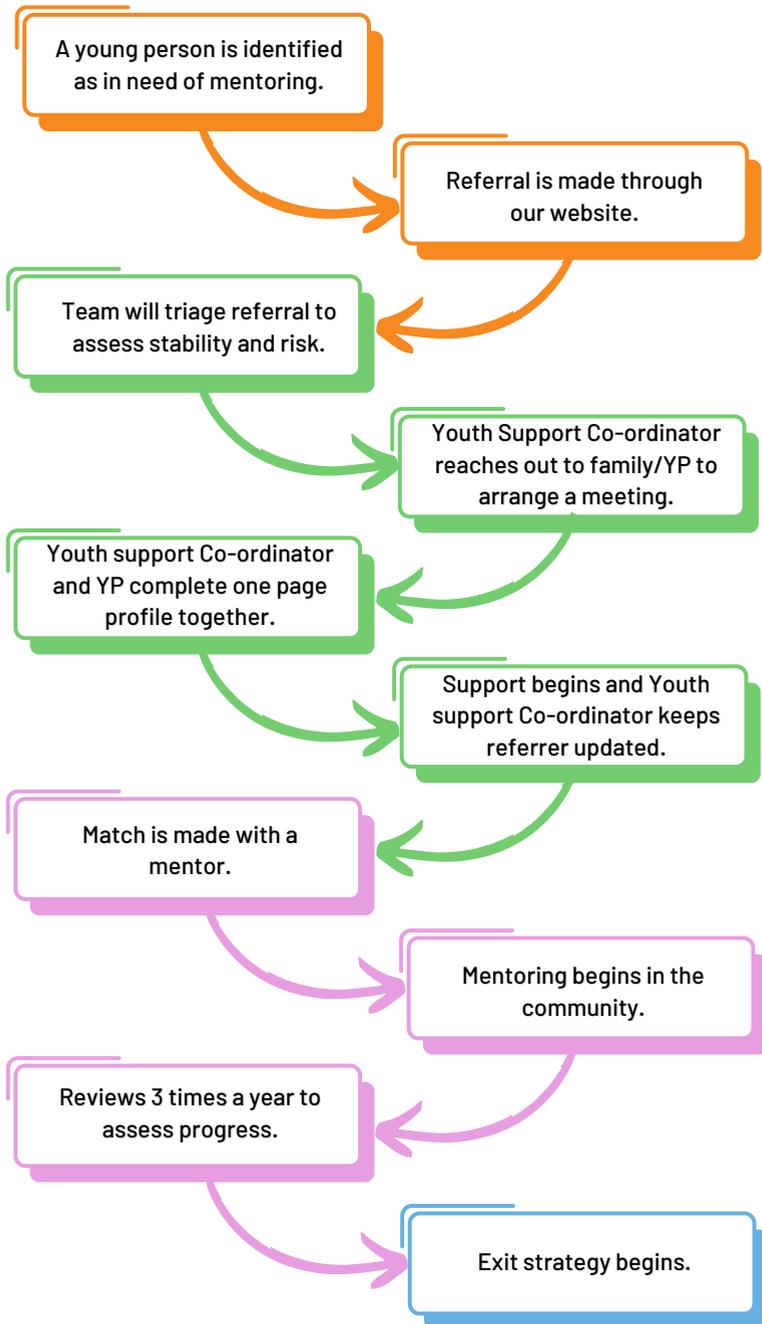

Most young people referred to us will experience 2 of these needs, increasing the risk they face.

We estimate **100,000 young people** in the UK are at-risk. We intend to grow to meet the needs of as many of these young people as possible.

"Since working with Caudwell Youth, I can now open up and talk as this was something I struggled with before, my financial situation has improved as I made a claim for Universal Credit. I am working on my anxiety and learning to control this."

HOW WE WORK

OUR OUTCOMES

Our outcomes come directly from young people, we survey them 3 times a year as an opportunity for mentor and young person to reflect on their progress. On average 75% of young people we support will complete the survey.

*Outcomes from October 2023

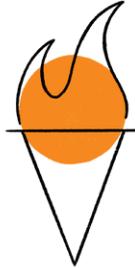

"I got a job and have become more confident at dealing with challenges. My mentor, Youth Support Coordinator and me together as a team."
