

# Could you spot the signs of your child being exploited?

## Do they:

- have no interest in school
- regularly skip school without revealing why
- not care about their education

Noticed changes in a child and not been able to work out what is going on? Any of these tell-tale signs could mean a child is being used by criminals or gangs.

Has there been a reduction in your child's school performance? Are you regularly advised your child has not gone to school and you don't know why? Is there a negative attitude towards school and education?

There is help out there.
