

# Could you spot the signs of your child being exploited?

## Do they:

- have unexplained injuries
- try and hide injuries
- not explain how they got injured?

Noticed changes in a child and not been able to work out what is going on? Any of these tell-tale signs could mean a child is being used by criminals or gangs.

Has your child got an injury they can't or won't explain how they got? Are you concerned they are being hurt by someone else or by their own hand? Do they become agitated or evasive when you ask about marks or injuries.

There is help out there.
