

Oral Health Promotion Team

The Oral Health Promotion Team work within the Oxfordshire Community Dental Service. We are part of the Oxford Health NHS Foundation Trust and provide National Health Service Dentistry.

What we do?

The Oxfordshire Community Dental Service provides dental treatment and advice such as:

- Special care dentistry for people with special needs.
- Paediatric (children)
- Domiciliary care (Provided in the home/residential setting)
- Sedation
- General anaesthetic
- Oral surgery
- Orthodontics (such as braces)
- Endodontic (such as root canal)

Who do we provide care for:

The Oxfordshire Community Dental Service sees a wide range of people of all ages including people with:

- Physical disabilities
- Learning disabilities
- Mental health problems
- Medical conditions such as dementia
- Extensive untreated tooth decay

The service can also provide a range of options for children and adults who are particularly anxious or dental phobic; who are housebound or who are affected by homelessness.
